West Chester, PA

SUMMARY

- 7 years' experience in designing User Interface (UI) applications and professional web applications using HTML5, CSS, JavaScript, JQuery, AJAX, JSON and XML.
- Over 2 years' experience in building web and mobile applications with ReactJS, Cordova.
- Experience in both Waterfall & Agile development methodologies.
- Great knowledge in front-end architecture, including performance, accessibility and security, high quality code scalability.
- Expertise in React JS framework to develop Single Page Applications.
- Experienced in working with Redux architecture using Object-Oriented concepts in improving the performance of the websites.
- Experience in using React JS components, Forms, Events, Keys, Router, Animations.
- Good Experience in React.js for creating interactive UI's using JSX and React Native Concepts.
- Familiar with creating Custom Reusable React Components Library.
- Experience in building event-driven applications using AJAX, OOPJS and JSON.
- Experience dependencies management using npm in NodeJS applications
- Cooperating with the back-end developer in the process of building RESTful API.
- Experience in using jQuery plugins for Drag-and-Drop, Widgets, Menus UI and forms.
- Proficient in using jQuery extensively for event handling and DOM manipulation.
- Proficient in dealing with CSS pre-processors namely SASS.
- Solid experience with Responsive Web Design.
- Experienced in using Bootstrap for grid system web designs.
- Demonstrated ability to complete projects in deadline-oriented environments. Quick learner and proficient in solving technical issues and managing multiple tasks simultaneously.

TECHNICAL SKILLS

- **Web Technologies:** HTML5, CSS, SASS, Bootstrap, Responsive CSS.
- **Programming Languages:** JavaScript, NodeJS, ES6, PHP, Python
- **Frameworks:** ReactJS, Redux
- **Database Management:** Google Cloud Firestore, MongoDB, MySQL, PDO
- **Operating Systems:** Windows, Linux.
- **Browsers:** Chrome, Mozilla, Edge
- **Mobile App Dev.:** Cordova, React-Native.
- **Web Servers:** REST API.
- **Project Methodology:** Agile

PROFESSIONAL EXPERIENCE

FREELANCE

Front End Developer

Aug '2019 – Present

- Converting UI designs and Creating React UI components for web and mobile projects.
- Unit & Integrating testing with Jest and Enzyme.
- Consuming REST APIs.

- Building RESTful API with NodeJS

Environment & Tools: HTML, CSS, JavaScript, NodeJS, React Native, ES6, GitHub, OOP JS, MongoDB, REST.

CYCLOLIFE

Web & Mobile Developer

Jul '2017 – Aug '2019

- Created project wireframes and architecture design for mobile and web development of the product using Adobe XD
- Built the company's mobile app that helped drive the purpose of the company (bike e-rentals) using HTML, CSS, JavaScript, JSON and the Cordova JS framework and database management with the Cloud Firestore structure (NoSQL)
- Co-Managed the marketing strategy of the company's ideals by building a web platform and reviewing advertising graphics.
- Managed database security using the Cloud Firestore Platform.

Environment & Tools: HTML, CSS, JavaScript, NodeJS, Cordova, ES6, GitHub, Google Cloud Firestore, OOP JS, Firestore NoSQL Storage, REST, React Native.

CODAERT (freelance)

Software Developer

Aug '2018 – May '2019

- Built web platforms using the ReactJS platform that helped give SMEs an online presence for business growth.
- Maintained States in the store and dispatched the Actions using Redux.
- Used Redux and Redux-Thunk for asynchronous calls in different applications.
- Called Restful web services calls for the CRUD methods.
- Created Cross-Browser compatible with every project.
- Design UI of each project using HTML, CSS, JavaScript and Bootstrap.
- Trained youths in programming skills for the web that got 50% of them jobs afterward.
- Contributed to the company business plans that increased customer relations and revenue.
- Organized Keynotes events to sensitize local developers on current and updated skillsets.

Environment & Tools: HTML, CSS, SASS, JavaScript, ReactJS, Redux, WordPress, PHP, ES6, jQuery, Agile, Google Cloud Firestore, OOP JS, Bootstrap, JSON, Cordova, PhoneGap, NodeJS.

SBSCNIGERIA

Front End Developer

Dec '2016 – Jul '2018

- Converted UI Designs / Mockups into usable web pages (HTML, SASS, JavaScript, ReactJS) thereby improving customer visual satisfaction.
- Debugged Frontend JS codes in .NET projects.

- Worked with backend developers to consume CRUD functions using REST techniques with the React-Redux.
- Worked as a Product Designer in some of the company flagship products.
- Debugged frontend codes using the Chrome DevTools.

Environment & Tools: HTML, CSS, SASS, ReactJS, Redux, Adobe XD, Bootstrap, Visual Studio, jQuery, NodeJS, Apache, Sketch, Agile, SVN, GitHub.

IQUBE LABS

Software Developer Intern

May '2016 – Nov '2016

- Worked on in-house application projects in data management and algorithms using PHP, JavaScript, and Elastic Search.
- Assisted in constructing architectural designs of major customer software thereby reducing the risk of software complications.
- Worked on Database Management Protocols for Relational Databases (MySQL, PostgreSQL)
- Worked on projects using the Agile SDLC.

Environment & Tools: HTML, PHP, CakePHP, MySQL, PostgreSQL, JavaScript, JQuery, Apache, Elastic Search, C++, C#, Apache.

GOOGLE DEVELOPERS' GROUP (UNILAG)

Organizer/Lead

May '2012 – May '2016

- Contributed to the growth of the developer sector in University through hosting code labs, hackathons, Tech Seminars.
- Contributed to the managerial planning of the group which involved people management, event management, fund acquisitions which led to successful and steady growth of the group.
- Represented the group in intra-continental Seminars organized by GDG

Environment & Tools: Public Speaking, Managerial skills, Fund Management, People Management, Presentation.
