ABOUT ME

Experienced and driven software developer with over 7 years of experience providing solutions in web development, mobile development, UI/UX and training aspiring programmers. Proven record with finished and ongoing projects with clients. Focused on bridging the gap between Africa and technology in the world.

EDUCATION

SSCE (2005 - 2011) - STARS INT'L COLLEGE
Majored in the science class.

B.SC (2011 - 2019) - UNIVERSITY OF LAGOS
B.sc Computer Engineering in University of Lagos, Akoka, Lagos, Nigeria. (in view)

EXPERIENCE

ORGANISER (MAY 2014 - MAY 2017) - GDG UNILAG
The Google Developers' Group focuses on creating awareness and training members on Google technologies for developers. I was privileged to co-ordinate the Unilag chaper which involved organising events, codelabs, hackathons to achieve the goal of the group.

SOFTWARE DEVELOPER (MAY 2016 - NOV 2016) - IQUBE LABS
My school internship period involved me working for 6 months as a developer at Iqube Labs. I worked on projects as a full stack developer while also developing my graphics designing skills.

FRONT-END DEVELOPER (JAN 2017 - AUG 2017) - SBSC
I served as a contract front-end developer at Software Business Solutions Consulting (SBSC). I was responsible for converting UI mockups to visual front-end views and also consuming APIs. My work period here exposed me to new front-end frameworks and plugins with I currently use extensively.

CTO (JUL 2017 - ...) - CYCLO LIFE.
cyclo is a transportation startup that specializes mainly in bicycles as a mode of transportation. Our mission is to make bicycle rental digital, easy and comfortable. A movement encompassing people with the flair for riding. I major at creating the technological tools of the startup which involves android apps and the web platform

CTO & INSTRUCTOR (AUG 2017 - ...) - CODAERT
Codaert helps to enhance the Tech awareness and skills of citizens in communities through training in programming, graphics and creating an online presence for SMEs in the locality.
