

Mishael Kama

Front-End Engineer

Coatesville, PA | mishealkama@gmail.com | 484-744-2880

2kama.github.io | github.com/2kama

SUMMARY

Innovative **Front-End Engineer** with 13 years of experience building high-performance, accessible, and scalable web and mobile applications using **React**, **React Native**, **Next.js**, and **TypeScript**. Proven record of delivering seamless user experiences, optimizing performance, and driving design-to-development excellence. Passionate about clean architecture, reusable components, and cross-functional collaboration.

CORE STRENGTHS

React • React Native • Next.js • TypeScript • JavaScript (ES6+) • HTML5 • CSS3/SASS • Redux • GraphQL • Firebase • Node.js • Jest • CI/CD • Accessibility (WCAG/ARIA) • Agile/Scrum • AWS • Google Cloud Platforms • Expo • Figma • PWA • Agentic AI Programming

EXPERIENCE

Merciheart – Software Developer (Contract)

Coatesville, PA | Jun 2025 – Mar 2026

- Built a full-stack mission crowdfunding platform using **React**, **Next.js**, and **NestJS**.
- Developed scalable backend services with **NestJS** and **MongoDB** for projects, donations, and user management.
- **Agentic AI programming** with **Claude Code** and **Cursor AI**.
- Converted WebApp to a **PWA** for mobile installation of mobile phones.
- Implemented secure authentication with **Firebase Auth**, including custom email workflows via **SendGrid**.
- Created serverless logic using **Google Cloud Functions** for transactions, notifications, and core business processes.
- Designed responsive, mobile-first UI with **React** and **Material UI**.
- Engineered wallet and withdrawal systems with balance tracking and validation rules.
- Integrated multilingual support (English, French, Spanish) with dynamic language switching.
- Improved performance and **SEO** using **Next.js SSR** and static generation.

Microsoft – Mobile Front-End Developer (Contract)

Redmond, WA | Jun 2024 – Apr 2025

- Built and maintained cross-platform features in **React Native + TypeScript** supporting **iOS/Android** parity and accessibility standards.
- Converted **Figma** designs to mobile native views for both Android and IOS devices.
- Collaborated with product/design to refine UI motion and transitions, boosting rendering performance by 30%.
- Integrated **GraphQL** subscriptions for real-time synchronization and improved client caching strategies.
- Drove test automation using **Jest & React Native Testing Library**, raising coverage by 40%.
- Conducted performance profiling (**Flipper**, **Hermes debugging**) and reduced app memory footprint.
- Supported release cycles and OTA updates via CodePush and App Center distribution pipelines.
- Assisted in triaging crash logs & CI build failures, partnering with QA for stable release delivery.

Rali – Front-End Developer

Atlanta, GA | Oct 2022 – Dec 2023

- Built responsive **Next.js + React** experiences improving page load time by 25% via code-splitting & caching.
- Developed shared UI and form component systems using **TypeScript & Storybook** for consistency across products.
- Built UI Components from **Figma** mockups and designs.
- Implemented state management using Redux Toolkit and normalized large data flows for performance.
- Integrated **REST & GraphQL APIs** and improved client-side error handling, logging, and monitoring.
- Championed **WCAG 2.1/ARIA accessibility** standards and conducted usability audits.
- Instrumented user behavior tracking with Segment & GA to guide UI decisions.
- Collaborated with **DevOps to support AWS-backed** deployments, assisting with:
- Reviewing **CloudFront + S3** cache behaviors for front-end builds
- Validating API Gateway endpoints and IAM-secured service calls
- Working with logs in CloudWatch to troubleshoot client-to-cloud issues
- Supported CI improvements in **GitHub Actions** (linting, type-checks, build size checks).

Kroger – Front-End Developer (Contract)

Cincinnati, OH | Jun 2021 – Aug 2022

- Developed COVID-19 vaccine scheduling flow improving public accessibility and appointment throughput.
- Led **WCAG compliance**, performed manual & automated audits (Axe, Lighthouse), reducing a11y defects 20%.
- Integrated with **Java/Kotlin Spring Boot APIs** and improved UI resiliency & error handling.
- Optimized React builds using dynamic imports, reducing bundle footprint.
- Built internal UI tools to surface debugging and customer service logs.
- Partnered with DevOps on AWS-related tasks, including:
- Verifying **S3 & CloudFront** build deployments and cache invalidations
- Reviewing Lambda-triggered workflows for appointment logic
- Using CloudWatch logs for debugging front-end <-> API behavior
- Collaborated in SAFe Agile environment: story grooming, sprint planning, and release coordination.

Siemens Healthineers – Front-End Developer (Contract)

Malvern, PA | Apr 2020 – Mar 2021

- Migrated Oracle-based animation dashboards into **React + Polymer UI** stack.
- Built custom animation utilities and modular components improving visualization consistency.
- Worked closely with **UX** and clinical stakeholders on healthcare-grade interface standards.
- Implemented **unit tests** & documented component behaviors for long-term maintainability.

CycloLife – Web & Mobile Developer

Lagos, Nigeria | May 2016 – Aug 2019

- Developed mobile e-bike app using **React Native + Firestore** enabling fleet location & rentals.

- Built new features using **JavaScript, React Native TSX Components and StyleSheets**.
- Migrated from Cordova to React Native improving performance, reliability, and UI experience.
- Designed **REST APIs in Node.js + MongoDB** supporting real-time status updates.
- Built admin dashboard for ride monitoring & customer management.
- Implemented mobile deep-links and custom push notifications.

GIG Logistics – Web Developer

Lagos, Nigeria | May 2012 – May 2016

- Built customer-facing web interfaces with **HTML5, SASS, and JavaScript**, improving usability.
- Optimized **DOM** & network performance, reducing load time 35%.
- Integrated front-end with **.NET REST services** for logistics workflows.
- Built internal operations dashboards & shipping label UI templates.
- Participated in Agile ceremonies & **QA review cycles**.
